

Granting Write Access of Globus Endpoint to HPCDME

1. Log into Globus at <http://www.globus.org> using your NCI credentials and select **Manage Data > Endpoints**.

2. Select **shareable by me** item to view endpoint list

3. Find the endpoint to share with HPCDME and click its name to view details.
4. Click the **Sharing** tab and follow below steps to grant HPC DME write permission on your Globus endpoint.
 - a. **Path:** Leave the default of /, or type or browse the desired path where sharing would occur.
 - b. **Share With:** Select **group**.

- c. **Group:** Click **Select a Group** button, type "HPCDME-" in the **Search for a Group** viewport and select the proper HPCDME Globus group for your need per the table below.

DOC	Tier	HPCDME Globus Group
FNLCR	Production	HPCDME-PROD-App-Accts-Pool-FNLCR
HiTIF	Production	HPCDME-PROD-App-Accts-Pool-HITIF
Neither FNLCR nor HiTIF	Production	HPCDME-PROD-App-Accts-Pool-Default
FNLCR	User Acceptance Testing / Pre-production	HPCDME-DEV-App-Accts-Pool-FNLCR
HiTIF	User Acceptance Testing / Pre-production	HPCDME-DEV-App-Accts-Pool-HITIF
Neither FNLCR nor HiTIF	User Acceptance Testing / Pre-production	HPCDME-DEV-App-Accts-Pool-Default

- d. **Permissions:** Check **write** option.
- e. Click the **Add Permission** button to commit.

NOTE: Obtaining UUID of Globus Endpoint

After step#3, look for the **UUID** attribute toward the bottom of the list of attributes, click copy button beside to copy the UUID value to the clipboard and paste it where needed.
